

## HOW DO I ADD YOUR SCHOOL TO MY FAFSA?

In order for the school to receive your FAFSA results, which are used to determine your eligibility for Federal Student Aid, you must enter our Federal School Code (**041169**) on Question 101 of the FAFSA.

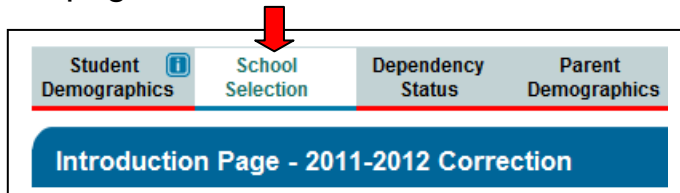

You can add up to 10 school codes to your FAFSA. By entering more than one school code, you can receive an Estimated Award Notice from multiple schools at the same time. This will help you in determining which school is most affordable, based on your award eligibility.

If you have already submitted a FAFSA for this award year, you can always add a school code after the fact:

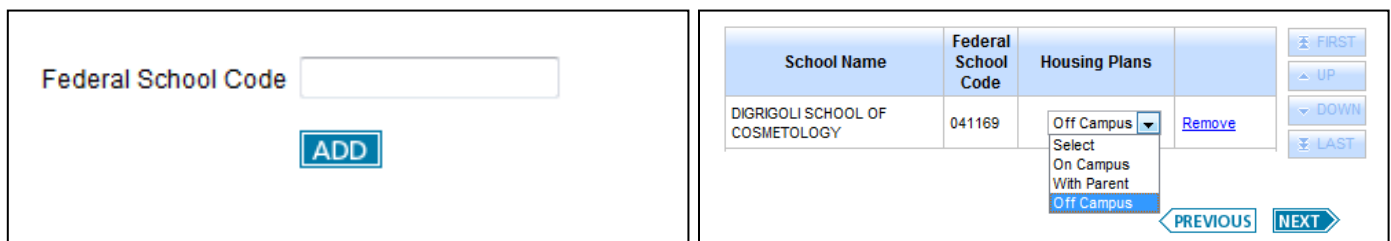

- Go to **www.fafsa.ed.gov** and log in using your name, Social Security number and date of birth.
- On the Welcome page, click on 'Make FAFSA Corrections'.

- On the next page, enter your Federal Student Aid PIN and create a password. Click 'Next' to get to the Introduction Page, then click on 'School Selection' at the top of the page.

- On the School Selection page, click on 'Add School', enter our Federal School Code (**041169**), click 'Add', select your Housing Plans and click 'Next'.

School Name	Federal School Code	Housing Plans	
DIGRIGOLI SCHOOL OF COSMETOLOGY	041169	Off Campus	Remove

- Click on 'Sign & Submit' at the top of the page and follow the instructions to submit your corrections. (Adding a school code is considered a correction.) Please note that it takes 1-3 business days for any FAFSA changes to process in the Federal Student Aid system.
